Guiding Governance and Leadership Excellence in Africa

Primavera Project 6 Training Course

Date: 22nd June 2026 to 26th June 2026

Venue: Kigali, Rwanda

COURSE OVERVIEW

Primavera P6 is an excellent project management application used worldwide to help plan, manage, and control project changes, activities, resources, etc., efficiently and easily. P6 is a powerful enterprise project portfolio management (EPPM) application that has a powerful and efficient interface. It helps track projects, portfolios, and resources through the respective life cycle while identifying all related costs, issues, risks, performance metrics, etc., along the way. It provides project templates that make it easier to reuse project outlines and project data completely.

Who is Primavera P6 most useful for? It is useful for organisations that need to handle multiple projects simultaneously, offering access to multiple stakeholders and users across an organisation or regions. Primavera P6 focuses on dashboards, projects, portfolios, resources, reports, and administration as key areas.

Some of the benefits offered include reduced risks and costs, optimised resource management, quick and easy forecasting, enhanced communication, robust graphic output, etc. This AGLIoCD training course will empower you with complete knowledge, information, and understanding of the basics of Primavera P6 Rel 8.3. By undertaking this course, you will understand the fundamental aspects of the application. Through this course, you will understand and realise the benefits of using Primavera P6 in planning for projects and will be able to recommend and rightfully justify the recruitment of this software for project management purposes. The knowledge and information gained through this course
